AUDIO VISUALS:

Erskine Chapel is located within a residential zone and we want to care for our neighbours. Acoustic testing has been undertaken by Marshal Day and we require events to use our approved specialist audio visual provider, who has a good understanding of our requirement to be respectful to the neighbours. Please note that we do not allow bands for events. AV Media, Broad Media and Crown Events are our exclusive provider's for the hire of wireless PA systems, TVs and sounds for musicians along with any lighting options. Grouse Lighting provide high quality lighting equipment and exceptional design services for events.
